SUMMARY

Junior full-stack developer and graphic designer with 3+ years of front-end experience. Build full-stack apps with Next.js, TypeScript, and Supabase, and turns Figma designs into polished, responsive interfaces. Comfortable with Git-based team workflows and always learning new tools.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Responsive Design

Backend & Data: Node.js, Express.js, PostgreSQL, Supabase, MongoDB, Auth.js / NextAuth, REST APIs

Tools: Git, GitHub, GitLab, Vercel, Netlify, WordPress, Debugging

Design: Figma, Adobe Photoshop, Illustrator, InDesign, Color Theory, Typography, Grid Systems

PROJECTS

TasteHome | Full-Stack Food Marketplace | Next.js, *TypeScript*, *Tailwind CSS*, *Supabase*, *Auth.js* | [Link](#)

- Built a full-stack marketplace with a responsive Next.js App Router front end [add what users can do: post dishes, browse, order, message]
- Implemented custom authentication with bcrypt password hashing, JWT sessions, and middleware-protected routes
- Secured data access with Supabase Row Level Security policies so users can only read and modify their own records
- Used route groups to separate auth and main app layouts; deployed to Vercel with environment-based configuration

CrypTrade | Crypto Market Dashboard | Next.js, *CoinGecko API*

[Link](#)

- Built a live market dashboard showing top coins with market cap, 24h price change, and 24h volume from the CoinGecko API
- Adding user login and personal portfolio tracking so users can record and monitor their own holdings

Expense Tracker | MERN CRUD App | React, *Node.js*, *Express*, *MongoDB*

- Built a full-stack expense app with a REST API, CRUD operations, and a front end deployed on Netlify (expentrackapp.netlify.app)

PROFESSIONAL EXPERIENCE

Front-End Web Developer | Crystal Technologies, Chitwan, Nepal

Feb 2020 – Apr 2023

- Built and maintained responsive client websites using HTML5, CSS3, JavaScript, and WordPress
- Converted Figma and Adobe XD mockups into production-ready interfaces with close attention to usability and visual consistency
- Worked with designers and clients to gather requirements, ship features, and resolve technical issues
- Debugged and optimized existing websites to improve performance and maintainability
- Used GitHub and GitLab for version control, code reviews, and collaborative workflows

Independent Front-End Developer | Canada

May 2023 – Present

- Focused on React and Next.js after relocating to Canada, building and deploying full-stack projects (see Projects)

EDUCATION

Advertising and Graphic Design Humber College, Etobicoke, ON	<i>2024 – Present</i>
Diploma in Computer Engineering Nepal Polytechnic Institute, Chitwan, Nepal	<i>2019 – 2021</i>

CERTIFICATION

Next.js App Router Course | Vercel, 2026
